[Why We Love Dogs, Eat Pigs, and Wear Cows](#) - Melanie Joy
2011-09-01

In this paperback edition is a foreword by activist and author John Robbins and a reader's group study guide. This ground-breaking work, voted one of the top ten books of 2010 by VegNews Magazine, offers an absorbing look at why and how humans can so wholeheartedly devote ourselves to certain animals and then allow others to suffer needlessly, especially those slaughtered for our consumption. Social psychologist Melanie Joy explores the many ways we numb ourselves and disconnect from our natural empathy for farmed animals. She coins the term "carnism" to describe the belief system that has conditioned us to eat certain animals and not others. In *Why We Love Dogs, Eat Pigs, and Wear Cows* Joy investigates factory farming, exposing how cruelly the animals are treated, the hazards that meatpacking workers face, and the environmental impact of raising 10 billion animals for food each year. Controversial and challenging, this book will change the way you think about food forever.

Dog Eat Dog - Niq Mhlongo 2012-06-13

Dog Eat Dog is a remarkable record of being young in a nation undergoing tremendous turmoil, and provides a glimpse into

South Africa's pivotal kwaito (South African hip-hop) generation and life in Soweto. Set in 1994, just as South Africa is making its postapartheid transition, *Dog Eat Dog* captures the hopes—and crushing disappointments—that characterize such moments in a nation's history. Raucous and darkly humorous, *Dog Eat Dog* is narrated by Dingamanzi Makhedama Njomane, a college student in South Africa who spends his days partying, skipping class, and picking up girls. But Dingz, as he is known to his friends, is living in charged times, and his discouraging college life plays out against the backdrop of South Africa's first democratic elections, the spread of AIDS, and financial difficulties that threaten to force him out of school.

Almost a Real Doctor - Robert G Cimer D V M 2019-07-10

As a child of the sixties, growing up in the New Jersey suburbs, he delivered kittens, rehabilitated wildlife, and inherited his mother's love for animals; there he found the spark to pursue a career as a veterinarian. However, first, he had to overcome an unsupportive father, a belittling academic advisor, three colleges, and financial hardship. In vet school, he struggled as a mediocre student, aggravated the assistant dean, challenged a combatant intern, punched out a fellow student, while avoiding the wrath of

the chief of surgery. Then the naïve Jersey boy worked his first year as a farm animal vet wrestling a pregnant sow, dodging a one-ton Brahma bull, splitting open a rotting cow on a sunbaked Missouri field, and bluffing his way from one farm call to the next. A year later he returned to New Jersey where life really got tough. Here are real stories of a career veterinarian. Hilarious tales, like the house call to the home of a cantankerous old preacher and a box spring full of feral cats. Heart-wrenching scenes, like the euthanasia of a puppy cradled in the arms of a chronically ill boy. The bizarre story of the old woman who believed her black Labrador contained the reincarnated soul of her dead mother and was convinced Molly, a.k.a. Mom was pregnant. Thought-provoking drama, like the senior citizen who ended his dog's suffering with a plastic bag attached to the exhaust pipe of his old pick-up truck. Stories of success; the last chance, surgery which saved a dog's life, and stories of failure; a surgical mishap which leads to the death of a German Shepherd Dog. What is it like to be a veterinarian? It's not just about loving animals. It is having sympathy for the animal while having empathy for the owner. It's convincing a pet owner their dog's surgery is more valuable than their next vacation. It's telling a stranger it is time to euthanize the family pet. It's putting your own dog to sleep in front of your children. It's performing a difficult surgery-alone. It's explaining to a distraught client why their pet died during a routine surgical procedure. It's negotiating the cost of a life-saving treatment while struggling to support a family. It's the revelation that veterinary medicine has become a discretionary afterthought for disposable pets. It's the realization that the small-town practice is selling out to greedy corporate America. In three decades of practice, ungrateful clients, angry pet owners, and viscous patients tested his faith. In his own hospital, insubordinate employees, deranged associates, frivolous lawsuits, hurricane Sandy, a nationwide recession, merciless bankers, and a rapidly changing profession, threatened

his dream. Of course, he enjoyed every minute of it, or did he? This book will appeal to readers of James Herriot and Dr. Robert Miller, and these colorful stories will attract viewers of current veterinary and pet care reality shows. It will appeal to veterinarians, veterinary para-professionals, vet students, and millions of pet owners who wonder what it is like to be a vet. This book is Marley and Me, meets Patch Adams. This uniquely candid retrospective reveals the truth behind a largely misunderstood profession defined by fluffy reality shows and fanciful stories. Most books ask, "Who wants to be a veterinarian"? ALMOST A REAL DOCTOR asks, "Are you sure you want to be a veterinarian?"

The Dogs are Eating Them Now - Graeme Smith 2015-01-01

The Dogs are Eating Them Now is a highly personal narrative of our war in Afghanistan and how it went dangerously wrong. Written by a respected and fearless former foreign correspondent who has won multiple awards for his journalism (including an Emmy for the video series "Talking with the Taliban") this is a gripping account of modern warfare that takes you into back alleys, cockpits, and prisons —telling stories that would have endangered his life had he published this book while still working as a journalist. Smith was not simply embedded with the military:

he operated independently and at great personal risk to report from inside the war, and the heroes of his story are the translators, guides, and ordinary citizens who helped him find the truth. They revealed sad, absurd, touching stories that provide the key to understanding why the mission failed to deliver peace and democracy. From the corruption of law enforcement agents and the tribal nature of the local power structure to the economics of the drug trade and the frequent blunders of foreign troops, this is the no-holds-barred story from a leading expert on the insurgency.

Inside of a Dog - Alexandra Horowitz 2010-02-18

As an unabashed dog lover, Alexandra Horowitz is naturally curious about what her dog thinks and what she knows. As a cognitive scientist she is intent on understanding the minds of animals who cannot say what they know or feel. This is a fresh look at the world of dogs -- from the dog's point of view. The book introduces the reader to the science of the dog -- their perceptual and cognitive Abilities -- and uses that introduction to draw a picture of what it might be like to be a dog. It answers questions no other dog book can -- such as: What is a dog's sense of time? Does she miss me? Want friends? Know when she's been bad? Horowitz's journey, and the insights she uncovered from studying her own dog, Pumpnickel, allowed her to understand her dog better, and appreciate her more through that understanding. The reader will be able to do the same with their own dog. This is not another dog training book. Instead, Inside of a Dog will allow dog owners to look at their pets' behaviour in a different, and revealing light, enabling them to understand their dogs and enjoy their relationship even more.

convictions apiece and no more chances. Under California's 'Three Strikes' law, one more conviction - even for shoplifting - carries a mandatory life sentence with no prospect of remission. But a law intended to deter career criminals has the opposite effect on these three. Combined they have spent a lifetime behind bars and have no idea, or intention, of leading a straight life under rules set by a system they have never belonged to.

Dog Eats Dog - Iain Levison 2012-08-31

Praise for Iain Levison: "The real deal . . . bracing, hilarious and

dead on."--The New York Times Book Review "Witty, deft, well-conceived writing that combines sharp satire with real suspense."--Kirkus Reviews "Levison writes tight, punchy prose, with deadpan humor and savvy."--The Wall Street Journal Philip Dixon is down on his luck. An escape from a lucrative but botched bank robbery lands him bleeding and on the verge of collapse in a college town in New Hampshire. How can he find a place to hide out in this innocent setting? Peering into the window of the nearest house, he sees a glimmer of hope: a man in his mid-thirties, obviously some kind of academic, is rolling around on the living room floor with an attractive high-school student. Professor Elias White is then blackmailed into harboring a dangerous

fugitive, as Dixon--with a cool quarter-million in his bag and dreams of Canada in his head--gets ready for the last phase of his escape. But the last phase is always the hardest. Attractive and persistent FBI agent Denise Lupo is on his trail. As for Elias White, his surprising transition from respected academic to willing accomplice poses a ruthless threat that Dixon would be foolish to underestimate. "...Funny and acerbic, and crackles with raw energy."--The Sunday Times (UK) Iain Levison was born in Aberdeen, Scotland, in 1963. Since moving to the United States, he has worked as a fisherman, carpenter, and cook, and he has detailed his woes of wage slavery in *A Working Stiff's Manifesto*. He lives in Raleigh, North Carolina.
