A Study in Scarlet Illustrated - Sir Arthur Conan Doyle 2020-10-13

A Study in Scarlet is an 1887 detective novel by Scottish author Arthur Conan Doyle. Written in 1886, the story marks the first appearance of Sherlock Holmes and Dr. Watson, who would become the most famous detective duo in popular fiction. The book's title derives from a speech given by Holmes, a consulting detective, to his friend and chronicler Watson on the nature of his work, in which he describes the story's murder investigation as his "study in scarlet" "There's the scarlet thread of murder running through the colourless skein of life, and our duty is to unravel it, and isolate it, and expose every inch of it."

Breastfeeding - Patricia Stuart-Macadam 2017-09-29

Breastfeeding is a biocultural phenomenon: not only is it a biological process, but it is also a culturally determined behavior. As such, it has important implications for understanding the past, present, and future condition of our species. In general, scholars have emphasized either the biological or the cultural aspects of breastfeeding, but not both. As biological anthropologists the editors of this volume feel

that an evolutionary approach combining both aspects is essential. One of the goals of their book is to incorporate data from diverse fields to present a more holistic view of breastfeeding, through the inclusion of research from a number of different disciplines, including biological and social/cultural anthropology, nutrition, and medicine. The resulting book, presenting the complexity of the issues surrounding very basic decisions about infant nutrition, will fill a void in the existing literature on breastfeeding.

Self Esteem - Virginia Satir 2001

This reissued edition of Virginia Satir's best-selling book combines eloquent and uplifting words with colorful illustrations to provide a simple and succinct declaration of self-worth for women looking for renewed hope, broader possibilities, and positive feelings about themselves.

Systemic Therapy with Individuals - Paolo Bertrando 2018-05-08

The authors describe the work they are doing with individual clients in Milan. Locating themselves clearly within the tradition of the Milan approach and more recent social constructionist and narrative influences, and articulating continually a broad systemic

framework emphasizing meaning problems in context and relationship, they introduce a range of ideas taken from psychoanalysis, strategic therapy, Gestalt therapy and narrative work. They describe the therapy as Brief/Long-term therapy and introduce new interviewing techniques, such as connecting the past, present and future in a way that releases clients and helps them construct new narratives for the future; inviting the patient to speak to the therapist as an absent family member; and working with the client to monitor their own therapy. The book is written with a freshness that suggests the authors are describing "work in progress", and the reader is privy to the authors' own thoughts and reactions as they comment on the process of their therapy cases. This is a demystifying book, for it allows the reader to understand why one particular technique was preferred over another.

Comparing Ethnographies - Kathryn Anderson-Levitt 2017-06-23

Comparing Ethnographies presents cross-national comparisons that give researchers and students a fresh look at familiar concepts. How does it matter, for example, to think in terms of "majorities" rather than "minorities," "migrants" rather than "immigrants," or "intercultural education" rather than "multicultural education"? How does indigenous education or the work of teachers look different to ethnographers from different countries of the Americas? This engaging new volume edited by Kathryn Anderson-Levitt and Elsie Rockwell includes essays from experts throughout the Americas which help readers understand and learn from ethnographic educational research conducted across the Western Hemisphere, and also includes a practical guide to finding the relevant literature.

The New Peoplemaking - Virginia Satir 1988
Revised and expanded seminal work on families, with more than a million copies sold in 12 languages. *The New Peoplemaking* expresses Satir's most evolved thoughts on self-worth, communication, family systems, and the ways in which people relate to one another. Drawn on Satir's lifetime of experience with thousands of families around the world, it is written in the engaging style for which she is famous. *The New Peoplemaking* is completely revised and

enlarged by six new chapters that elaborate on the whole of life.

Black Skin, White Masks - Frantz Fanon
2017-05-09

Black Skin, White Masks is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace. Frantz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation. With an introduction by Paul Gilroy, author of *There Ain't No Black in the Union Jack*.
[The Mobility of Workers Under Advanced Capitalism](#) - Ramona Hernández 2002-03-06
What explains the international mobility of workers from developing to advanced societies? Why do workers move from one region to another? Theoretically, the supply of workers in a given region and the demand for them in another account for the international mobility of laborers. Job seekers from less developed regions migrate to more advanced countries where technological and productive transformations have produced a shortage of laborers. Using the Dominican labor force in New York as a case study, Ramona Hernández challenges this presumption of a straightforward relationship between supply and demand in the job markets of the receiving society. She contends that the traditional correlation between migration and economic progress does not always hold true. Once transplanted in New York City, Hernández shows, Dominicans have faced economic hardship as the result of high levels of unemployment and underemployment and the reality of a changing labor market that increasingly requires workers with skills and training they do not have. Rather than responding to a demand in the labor market, emigration from the Dominican Republic was the result of a de facto government policy encouraging poor and jobless people to leave—a policy in which the United States was an accomplice because the policy suited its

economic and political interests in the region.

FAMILY THERAPY TECHNIQUES - Salvador MINUCHIN 2009-06-30

A master of family therapy, Salvador Minuchin, traces for the first time the minute operations of day-to-day practice. Dr. Minuchin has achieved renown for his theoretical breakthroughs and his success at treatment. Now he explains in close detail those precise and difficult maneuvers that constitute his art. The book thus codifies the method of one of the country's most successful practitioners.

All These Things Shall Give Thee Experience - Neal A. Maxwell 2007

Families in Flux - Amy Swerdlow 1989

Challenging the concepts of the "typical" family, the authors illustrate the diversity of household forms and kinship ties throughout history and in the present. Peeling away layers of emotion and ideology, they explore the social, political, emotional, and economic functions of the family as well as the importance of gender, class, race, and culture in shaping it. A variety of contemporary family forms-nuclear, single parent, communal-are described, and provocative questions raised about families of the future.

Daring Greatly - Brené Brown 2013-01-17

Researcher and thought leader Dr. Brené Brown offers a powerful new vision in *Daring Greatly* that encourages us to embrace vulnerability and imperfection, to live wholeheartedly and courageously. 'It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; . . . who at best knows in the end the triumph of high achievement, and who at worst, if he fails, at least fails while daring greatly' - Theodore Roosevelt Every time we are introduced to someone new, try to be creative, or start a difficult conversation, we take a risk. We feel uncertain and exposed. We feel vulnerable. Most of us try to fight those feelings - we strive to appear perfect. Challenging everything we think we know about vulnerability, Dr. Brené Brown dispels the widely accepted myth that it's a weakness. She argues

that vulnerability is in fact a strength, and when we shut ourselves off from revealing our true selves we grow distanced from the things that bring purpose and meaning to our lives. *Daring Greatly* is the culmination of 12 years of groundbreaking social research, across the home, relationships, work, and parenting. It is an invitation to be courageous; to show up and let ourselves be seen, even when there are no guarantees. This is vulnerability. This is daring greatly. 'Brilliantly insightful. I can't stop thinking about this book' -Gretchen Rubin Brené Brown, Ph.D., LMSW is a #1 New York Times bestselling author and a research professor at the University of Houston Graduate College of Social Work. Her groundbreaking work was featured on Oprah Winfrey's Super Soul Sunday, NPR, and CNN. Her TED talk is one of the most watched TED talks of all time. Brené is also the author of *The Gifts of Imperfection* and *I Thought It Was Just Me (but it isn't)*.

Three Trapped Tigers - Guillermo Cabrera Infante 1997-08-01

Presents a kaleidoscopic vision of the people and events comprising night life in Havana in the 1950s

Childhood And Society - E H Erikson 2014-08-21

With this deeply influential book, which is now internationally recognised as a classic study of childhood and its social significance, Professor Erikson has made an outstanding contribution to the study of human behaviour. Drawing on psychoanalytical theory and his own clinical experience, he devotes the main chapters to anxiety in young children, apathy in American Indians, confusion in veterans of war, and arrogance in young Nazis.

The Theory of Communicative Action - Jürgen Habermas 2015-10-07

This study offers a systematic reconstruction of the theoretical foundations and framework of critical social theory. It is Habermas' "magnum opus", and it is regarded as one of the most important works of modern social thought. In this second and final volume of the work, Habermas examines the relations between action concepts and systems theory and elaborates a framework for analyzing the developmental tendencies of modern societies. He discusses in detail the work of Marx, Durkheim, G.H. Mead and Talcott Parsons,

among others. By distinguishing between social systems and what he calls the "life-world", Habermas is able to analyze the ways in which the development of social systems impinges upon the symbolic and subjective dimensions of social life, resulting in the kind of crises, conflicts and protest movements which are characteristic of advanced capitalist societies in the late-20th century.

Guide to International Human Rights Practice - Hurst Hannum 2014-01-14

Amador - Fernando Savater 2014-09-30
In *Amador*, Fernando Savater writes in the form of a letter to his teenage son about ethics, morals and freedom in today's society.

Cultures of Migration - Jeffrey H. Cohen 2011-09-01

Around the globe, people leave their homes to better themselves, to satisfy needs, and to care for their families. They also migrate to escape undesirable conditions, ranging from a lack of economic opportunities to violent conflicts at home or in the community. Most studies of migration have analyzed the topic at either the macro level of national and global economic and political forces, or the micro level of the psychology of individual migrants. Few studies have examined the "culture of migration"—that is, the cultural beliefs and social patterns that influence people to move. *Cultures of Migration* combines anthropological and geographical sensibilities, as well as sociological and economic models, to explore the household-level decision-making process that prompts migration. The authors draw their examples not only from their previous studies of Mexican Oaxacans and Turkish Kurds but also from migrants from Europe, sub-Saharan Africa, the Pacific, and many parts of Asia. They examine social, economic, and political factors that can induce a household to decide to send members abroad, along with the cultural beliefs and traditions that can limit migration. The authors look at both transnational and internal migrations, and at shorter- and longer-term stays in the receiving location. They also consider the effect that migration has on those who remain behind. The authors' "culture of migration" model adds an important new dimension to our understanding of the cultural beliefs and social patterns

associated with migration and will help specialists better respond to increasing human mobility.

Escritura Y Sociedad - Virginia Zavala 2004

Digital Labour Platforms and the Future of Work - Janine Berg 2018

The Concept of the Employer - Jeremias Prassl 2015

Based on the author's thesis (doctoral - Oxford University, 2012), under title: The notion of the employer in multilateral organisational settings. *Indigenous Peoples in International Law* - James Anaya (jurist) 2004

In this thoroughly revised and updated edition of the first book-length treatment of the subject, S. James Anaya incorporates references to all the latest treaties and recent developments in the international law of indigenous peoples. Anaya demonstrates that, while historical trends in international law largely facilitated colonization of indigenous peoples and their lands, modern international law's human rights program has been modestly responsive to indigenous peoples' aspirations to survive as distinct communities in control of their own destinies. This book provides a theoretically grounded and practically oriented synthesis of the historical, contemporary and emerging international law related to indigenous peoples. It will be of great interest to scholars and lawyers in international law and human rights, as well as to those interested in the dynamics of indigenous and ethnic identity.

The Local Alternative - Rafael de la Cruz 2016-04-30

This book offers a step forward in finding out how the new decentralized institutional arrangements affect local economic development. In particular, it analyzes how local governments can use their increasing powers and responsibilities to improve productivity and quality of life in their territories.

Educational Psychology - Anita Woolfolk 2013-03-01

In lucid and jargon-free prose, the text explains and illustrates educational psychology's practical relevance for teachers and learners. The new edition continues to emphasize the applications of research on child development,

on learning and cognition, on motivation, and on instruction and assessment. At the same time the text has long been counted on for its state of the art presentation of the field of educational psychology, and this edition continues that tradition with new and expanded coverage of import topics like the brain and neuroscience, the impact of technology on the lives and learning of students, and student diversity. From reviews of the book: "I polled my students . . . and the vast majority actually liked the textbook (which is rare). They find it easy to read, interesting and engaging. . . . This textbook's major strengths are its cognitive perspective, its readability, and the fact that it puts into practice some of the information-processing strategies that it teaches as effective ways to process information. . . ." -Elizabeth Pemberton, University of Delaware "[T]he text is written in a . . . conversational style that invites students to actively explore complex questions about teaching and learning. It is well-organized, supported with visual aids, and various learning tools, such as guidelines, reflection activities, and cases presenting opposing viewpoints. Most importantly, the text is informed and well supported by contemporary scholarship in the field of educational psychology." -Alina Reznitskaya, Montclair State University Video-Enhanced Pearson eText. Family Medicine - J. L. Buckingham 2013-06-29
JOHN S. MILLIS In 1966 the Citizens Commission on Graduate Medical Education observed that the explosive growth in biomedical science and the consequent increase in medical skill and technology of the twentieth century had made it possible for physicians to respond to the episodes of illness of patients with an ever-increasing effectiveness, but that the increase in knowledge and technology had forced most physicians to concentrate upon a disease entity, an organ or organ system, or a particular mode of diagnosis or therapy. As a result there had been a growing lack of continuing and comprehensive patient care. The Commission expressed the opinion that "Now, in order to bring medicine's enhanced diagnostic and therapeutic powers fully to the benefit of society, it is necessary to have many physicians who can put medicine together again. "!" The Commission proceeded to recommend the education and training of substantial numbers of Primary Physicians who would, by assuming primary responsibility for the patient's welfare in sickness and in health, provide continuing and comprehensive health care to the citizens of the United States. In 1978 it is clear that the recommendation has been accepted by the public, the medical profession, and medical education. There has been a vigorous response in the development of family medicine and in the fields of internal medicine, pediatrics, and obstetrics. One is particularly impressed by the wide acceptance on the part of medical students of the concept of the primary physician. Dr. John S.

The Civilizing Process - Norbert Elias
2000-07-13

The Civilizing Process stands out as Norbert Elias' greatest work, tracing the "civilizing" of manners and personality in Western Europe since the late Middle Ages by demonstrating how the formation of states and the monopolization of power within them changed Western society forever.

Industrial/Organizational Psychology - Michael Aamodt 2009-02-04

Striking a balance between research, theory,

and application, the sixth edition of **INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY: AN APPLIED APPROACH** prepares students for their future careers through a combination of scholarship, humor, case studies, and practical applications. Students will see the relevance of industrial/organizational psychology to their everyday lives through such practical applications as how to write a resume, survive an employment interview, write a job description, create a performance appraisal instrument, and motivate employees. Charts and tables simplify such complicated issues as employment law, job satisfaction, work motivation and leadership. Emotional Intelligence - Daniel Goleman 1996
The groundbreaking bestseller that redefines intelligence and success Does IQ define our destiny? Daniel Goleman argues that our view of human intelligence is far too narrow, and that our emotions play major role in thought, decision making and individual success. Self-awareness, impulse control, persistence, motivation, empathy and social deftness are all qualities that mark people who excel: whose relationships flourish, who are stars in the workplace. With new insights into the brain architecture underlying emotion and rationality, Goleman shows precisely how emotional intelligence can be nurtured and strengthened in all of us.

The Lion Book of Fairy Tales - Julia Stone 2015-05

First published in 1982. Routledge is an imprint of Taylor & Francis, an informa company.

Risk Society - Professor Ulrich Beck 1992-07-01
This panoramic analysis of the condition of Western societies has been hailed as a classic. This first English edition has taken its place as a core text of contemporary sociology alongside earlier typifications of society as postindustrial and current debates about the social dimensions of the postmodern. Underpinning the analysis is the notion of the risk society'. The changing nature of society's relation to production and distribution is related to the environmental impact as a totalizing, globalizing economy based on scientific and technical knowledge becomes more central to social organization and social conflict.

This is effectively a historical journey through the works of the great 19th century Spanish masters from Goya through to Sorolla.

A Practical Guide to Rabbinic Counseling - Yisrael N. Levitz 2005

An integral and important work for every rabbi and community leader. This book puts the essential elements of rabbinic counseling into the hands of those who need it most. Rabbis and leaders often find themselves doing formal and informal counseling--but with little or no experience, opportunities can be lost and damage can be done. Here are practical tools to facilitate better communication and assistance, user-friendly and eminently practical. Dr. Levitz is a clinical psychologist, former pulpit rabbi, and Professor Emeritus of Yeshiva University's Wurzweiler School of Social Work. Rabbi Dr. Twerski is a noted psychiatrist and former pulpit

rabbi who has published close to fifty self-help books and specializes in addictions and rehabilitation. This book will be of interest and of essence to every rabbi, rebbe, and spiritual or community leader.

Europe at the Dawn of the Millennium - E. Barón 1996-11-14

For over forty years the European Community has been taking shape and developing its foundations to become the European Union. This book is a collection of pragmatic ideas and experience about the Europe of the future as seen by a citizen who is heavily involved in its construction. In this book, Mr Baron raises critical questions about the future needs and challenges of the Union, including a single currency, common citizenship, a foreign and security policy, enlargement to the east and the great issue of employment and welfare.

Law and Globalization from Below - Boaventura de Sousa Santos 2005-09-08

This book is an unprecedented attempt to analyze the role of the law in the global movement for social justice. Case studies in the book are written by leading scholars from both the global South and the global North, and combine empirical research on the ground with innovative sociolegal theory to shed new light on a wide array of topics. Among the issues examined are the role of law and politics in the World Social Forum; the struggle of the anti-sweatshop movement for the protection of international labour rights; and the challenge to neoliberal globalization and liberal human rights raised by grassroots movements in India and indigenous peoples around the world. These and other cases, the editors argue, signal the emergence of a subaltern cosmopolitan law and politics that calls for new social and legal theories capable of capturing the potential and tensions of counter-hegemonic globalization.
