**The New Old World** - Perry Anderson 2011-11-07

The New Old World looks at the history of the European Union, the core continental countries within it, and the issue of its further expansion into Asia. It opens with a consideration of the origins and outcomes of European integration since the Second World War, and how today's EU has been theorized across a range of contemporary disciplines. It then moves to more detailed accounts of political and cultural developments in the three principal states of the original Common Market—France, Germany and Italy. A third section explores the interrelated histories of Cyprus and Turkey that pose a leading geopolitical challenge to the Community. The book ends by tracing ideas of European unity from the Enlightenment to the present, and their bearing on the future of the Union. The New Old World offers a critical portrait of a continent now increasingly hailed as a moral and political example to the world at large.

*The Stones Cry Out* - Randall Price 1997

**Judah and the Judeans in the Persian Period** - Oded Lipschitz 2006

In July 2003, a conference was held at the University of Heidelberg (Germany), focusing on the people and land of Judah during the 5th and early 4th centuries B.C.E.-- the period when the Persian Empire held sway over the entire ancient Near East. This volume publishes the papers of the participants in the working group that attended the Heidelberg conference. Participants whose contributions appear here include: Y. Amit, B. Becking, J. Berquist, J. Blenkinsopp, M. Dandamayev, D. Edelman, T. Eskenazi, A. Fantalkin and O. Tal, L. Fried, L. Grabbe, S. Japhet, J. Kessler, E. A. Knauf, G. Knoppers, R. Kratz, A. Lemaire, O. Lipschitz, H. Liss, M. Oeming, L. Pearce, F. Polak, B. Porten and A. Yardeni, E. Stern, D. Ussishkin, D. Vanderhooft, and J. Wright. The

conference was the second of three meetings; the first, held at Tel Aviv in May 2001, was published as *Judah and the Judeans in the Neo-Babylonian Period* by Eisenbrauns in 2003. A third conference focusing on Judah and the Judeans in the Hellenistic era was held in the summer of 2005, at Münster, Germany, and will also be published by Eisenbrauns.

**Biblical Geography** - Edward Robinson 1846

**Neighboring Faiths** - David Nirenberg 2014-10-20

This book represents the culmination of David Nirenberg's ongoing project; namely, how Muslims, Christians, and Jews lived with and thought about each other in the Middle Ages, and what the medieval past can tell us about how they do so today. There have been scripture based studies of the three "religions of the book" that claim descent from Abraham, but Nirenberg goes beyond those to pay close attention to how the three religious neighbors loved, tolerated, massacred, and expelled each other--all in the name of God--in periods and places both long ago and far away. Whether Christian Crusaders and settlers in Islamic-ruled lands, or Jewish-Muslim relations in Christian-controlled Iberia, for Nirenberg, the three religions need to be studied in terms of how each affected the development of the other over time, their proximity of religious and philosophical thought as well as their overlapping geographies, and how the three "neighbors" define (and continue to define) themselves and their place in the here-and-now--and the here-after--in terms of one another. Arguing against exemplary histories, static models of tolerance versus prosecution, or so-called Golden Ages and Black Legends, Nirenberg offers here instead a story that is more dynamic and interdependent, one where Muslim, Jewish, and Christian communities have re-imagined themselves, not only as abstractions of categories in each other's theologies and ideologies, but by living with each other every day as neighbors jostling each other on the street. From dangerous attractions leading to interfaith marriage, to interreligious conflicts leading to segregation, violence, and sometimes extermination, to strategies of bridging the interfaith gap through language, vocabulary, and poetry--Nirenberg aims to understand the intertwined past of the three faiths as a way for their heirs to coproduce the future.

**The Archaeology of Politics** - Andrew M. Bauer 2011-05-25

The Archaeology of Politics is a collection of essays that examines political action and practice in the past through studies and analyses of material culture from the perspective of anthropological archaeology.

Contributors to this volume explore a variety of multi-scalar relationships between past peoples, places, objects and environments. At stake in this volume is what it is that constitutes politics, its social and cultural location, fields of analysis, its materiality and sociology and especially its position and possibilities as a conceptual and analytical category in archaeological investigations of past socio-cultural worlds. Our primary goals are twofold: the problematization and re-conceptualization of politics from its understanding as a reified essence or structure of political forms (e.g., a State) to a fluid, dynamic and culturally inflected set of practices; and, second, to consider politics' entanglement with the materiality of socio-cultural worlds at multiple-scales through the demonstration of innovative analytical approaches to the material record. The volume is a tightly integrated group of essays exploring an assortment of case studies that offer new theoretical insight to archaeological and historical analyses of politics.

**Parables of Coercion** - Seth Kimmel 2015-10-12

**More Than a Carpenter** - Josh D. McDowell 2011-07-14

The inspirational classic, *More than a Carpenter*, is now updated for a new generation of seekers with a fresh look, revised material, and a new chapter that addresses questions commonly raised today. Former skeptic Josh McDowell is now joined by his son Sean as they examine the evidence about Jesus. Is he really the Lord he claimed to be? How can we know for sure? *More than a Carpenter* offers arguments for faith from a skeptic turned believer. Since its original publication in 1977, this modern classic has sold over 15 million copies, been translated into dozens of languages, and introduced countless people to the real Jesus. Now with new content that addresses questions raised by today's popular atheist writers.

**The Historical Evidences of the Truth of the Scripture Records** - George Rawlinson 1800

**One God One Message** - P. D. Bramsen 2009-09

With compelling clarity, this inviting and informed journey through the Bible offers hope for eternity. Drawing on the author's passion for the scriptures, his years in an Islamic nation, and thousands of conversations with Muslim friends, this journey offers insight into life's big picture and clarifies some of the primary differences between a biblical and an Islamic worldview. The guide's endnotes section clarifies terminology used throughout the text and furnishes background information on customs of the era. A chapter-by-chapter discussion guide provides 150 questions for further examination as well as an assortment of Bible verses to spur self-reflection.

**The Rhetoric of Topics and Forms** - Gianna Zocco 2021-01-18

The fourth volume of the collected papers of the ICLA congress "The Many Languages of Comparative Literature" includes articles that study thematic and formal elements of literary texts. Although the question of prioritizing either the level of content or that of form has often provoked controversies, most contributions

here treat them as internally connected. While theoretical considerations inform many of the readings, the main interest of most articles can be described as rhetorical (in the widest sense) – given that the ancient discipline of rhetoric did not only include the study of rhetorical figures and tropes such as metaphor, irony, or satire, but also that of *topoi*, which were originally viewed as the 'places' where certain arguments could be found, but later came to represent the arguments or intellectual themes themselves. Another feature shared by most of the articles is the tendency of 'undeclared thematology', which not only reflects the persistence of the charge of positivism, but also shows that most scholars prefer to locate themselves within more specific, often interdisciplinary fields of literary study. In this sense, this volume does not only prove the ongoing relevance of traditional fields such as rhetoric and thematology, but provides contributions to currently flourishing research areas, among them literary multilingualism, literature and emotions, and ecocriticism.

**The Invention of the Land of Israel** - Shlomo Sand 2012-11-20

What is a homeland and when does it become a national territory? Why have so many people been willing to die for such places throughout the twentieth century? What is the essence of the Promised Land? Following the acclaimed and controversial *The Invention of the Jewish People*, Shlomo Sand examines the mysterious sacred land that has become the site of the longest-running national struggle of the twentieth and twenty-first centuries. *The Invention of the Land of Israel* deconstructs the age-old legends surrounding the Holy Land and the prejudices that continue to suffocate it. Sand's account dissects the concept of "historical right" and tracks the creation of the modern concept of the "Land of Israel" by nineteenth-century Evangelical Protestants and Jewish Zionists. This invention, he argues, not only facilitated the colonization of the Middle East and the establishment of the State of Israel; it is also threatening the existence of the Jewish state today.

**Andreas Capellanus on Love** - Andreas (Capellanus.) 1982

**Preaching** - John F. MacArthur 2005-08-21

Many sermons preached today lack the divine knowledge and spiritual understanding available only through dynamic expository preaching. In *Preaching: How to Preach Biblically*, John MacArthur's well-known passion for the Bible combines with the expertise of faculty members at The Master's Seminary to inspire and equip preachers in effective biblical preaching. *Preaching: How to Preach Biblically* flows from biblical foundations for expository preaching through a detailed process of developing expositions and creating sermons to the actual delivery of expository messages, connecting what pastors learn in seminary with the sermons preached in a local church. This volume shows how to progress purposefully from one phase to the next in preparing to minister to God's people through preaching. This book answers these questions and more: What is expository, biblical preaching? What are the theological and historical foundations for insisting on expository preaching? What are the steps involved in preparation for and participation in biblical preaching? What models exist for expository preaching today? The Master's Seminary faculty, with over thirty years' experience in preaching and seminary training of preachers, contributes a treasury of expertise alongside insights from expositor John MacArthur. While united on their commitment to exposition, the variety of individual expressions and methodological preferences discussed offers beneficial assistance for any preacher seeking a higher level of expository excellence.

The Expulsion of the Moriscos from Spain - 2014-09-18  
The Expulsion of the Moriscos from Spain offers a multi-perspective study of the forced migration and diaspora of the crypto-Muslim minority in the Mediterranean in the first half of the 17th century.

Paul Was Not a Christian - Pamela Eisenbaum 2009-12-08  
Pamela Eisenbaum, an expert on early Christianity, reveals the true nature of the historical Paul in *Paul Was Not a Christian*. She explores the idea of Paul not as the founder of a new Christian religion, but as a devout Jew who believed Jesus was the Christ who would unite Jews and Gentiles and fulfill God's universal plan for humanity. Eisenbaum's work in *Paul Was Not a Christian* will have a profound impact on the way many Christians approach evangelism and how to better follow Jesus's—and Paul's—teachings on how to live faithfully today.

After Conversion - Mercedes Garca-arenal 2016-09-15  
This book deals with the religious and ideological consequences of mass conversion in Iberia - where Jews and Muslims were forcibly converted or expelled at the end of the XVth century and beginning of the XVIth- and most specially with the relationship between origins and faith. It also deals with the consequences of coercion on intellectual debates and on the production of knowledge and addresses questions such as dissimulation, dissidence, religious doubt and unbelief.

The Archaeology of the Bible - James K. Hoffmeier PhD. 2019-03-22

For the past 200 years archaeological work has provided new information that allows us to peer into the past and open chapters of human history that have not been read for centuries, or even millennia. In *The Archaeology of the Bible* James K. Hoffmeier provides the reader with an incisive account of archaeology's role in shaping our understanding of the biblical texts. Fundamental issues addressed throughout include how archaeological discoveries relate to biblical accounts, and the compatibility of using scientific disciplines to prove or disprove a religious book such as the Bible. This work is an ideal introduction to the societies and events of the Ancient Near East and their relation to our interpretation of the Bible.

A Survey of Old Testament Introduction - Gleason L. Archer 2007

In this revised volume, Gleason Archer's original study is updated by Dillon Burroughs. Burroughs deals with debated issues and then individually dissects each book.

The Arts And Crafts Of Older Spain (Volume III) - Leonard Williams 2020-03-09

The Arts And Crafts Of Older Spain (Volume III): In Three Volumes, Volume III This book is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-

setting tools to re-create the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to intentional\unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. We are grateful to our readers for putting their faith in us and accepting our imperfections with regard to preservation of the historical content. HAPPY READING!

Medieval Francophone Literary Culture Outside France - Nicola Morato 2019-02-28

In medieval Europe, cultural, political, and linguistic identities rarely coincided with modern national borders. As early as the end of the twelfth century, French rose to prominence as a lingua franca that could facilitate communication between people, regardless of their origin, background, or community. Between the twelfth and fifteenth centuries, literary works were written or translated into French not only in France but also across Europe, from England and the Low Countries to as far afield as Italy, Cyprus, and the Holy Land. Many of these texts had a broad European circulation and for well over three hundred years they were transmitted, read, studied, imitated, and translated. Drawing on the results of the AHRC-funded research project *Medieval Francophone Literary Culture Outside France*, this volume aims to reassess medieval literary culture and explore it in a European and Mediterranean setting. The book, incorporating nineteen papers by international scholars, explores the circulation and production of francophone texts outside of France along two major axes of transmission: one stretching from England and Normandy across to Flanders and Burgundy, and the other running across the Pyrenees and Alps from the Iberian Peninsula to the Levant. In doing so, it offers new insights into how francophone literature forged a place for itself, both in medieval textual culture and, more generally, in Western cultural spheres.

What if Jesus Had Never Been Born? - D. James Kennedy 2008-07-11

One powerful truth is undeniable: if Christ had never been born, nearly every facet of human life would be

worse. Discover what the world would have been like without Jesus, and how some of the world's greatest accomplishments exist only because he lived. We live in a cynical age in which only one prejudice is tolerated: anti-Christian bigotry. Yet despite the near constant and attacks against the faith, one powerful truth is undeniable: if Christ had never been born, nearly every aspect of human life would be much more miserable than it is today. In *What if Jesus Had Never Been Born?*, discover: Christianity's impact on the value of human life, helping the poor, and education Christianity's impact on world history and the founding of America Christianity's contribution to civil liberties, science, medicine, and economics Lives changed by Jesus Christ The author also examines what happens in a world without Christianity, as well as fulfilling the purpose of believers as we move forward. Arranged topically and presenting compelling, little-known historical facts, *What If Jesus Had Never Been Born?* clearly demonstrates that an enormous benefits to humankind—from economics to art to government, science to civil liberties, morality to health, and beyond—would never have occurred had Jesus Christ not lived.

Biblical peoples and ethnicity - Ann E. Killebrew  
2005-10-01

Ancient Israel did not emerge within a vacuum but rather came to exist alongside various peoples, including Canaanites, Egyptians, and Philistines. Indeed, Israel's very proximity to these groups has made it difficult—until now—to distinguish the archaeological traces of early Israel and other contemporary groups.

Through an analysis of the results from recent excavations in light of relevant historical and later biblical texts, this book proposes that it is possible to identify these peoples and trace culturally or ethnically defined boundaries in the archaeological record. Features of late second-millennium B.C.E. culture are critically examined in their historical and biblical contexts in order to define the complex social boundaries of the early Iron Age and reconstruct the diverse material world of these four peoples. Of particular value to scholars, archaeologists, and historians, this volume will also be a standard reference and resource for students and other readers interested in the emergence of early Israel.

**The Lost World of the Flood** - John H. Walton 2018-04-03  
The Genesis flood account has been probed and analyzed for centuries. But what might the biblical author have been saying to his ancient audience? In order to rediscover the biblical flood, we must set aside our own cultural and interpretive assumptions and visit the distant world of the ancient Near East. Walton and Longman lead us on this enlightening journey toward a more responsible reading of a timeless biblical narrative.
