The Arctic and World Order - Kristina Spohr
2021-01-26

The Arctic, long described as the world's last frontier, is quickly becoming our first frontier—the front line in a world of more diffuse power, sharper geopolitical competition, and deepening interdependencies between people and nature. A space of often-bitter cold, the Arctic is the fastest-warming place on earth. It is humanity's canary in the coal mine—an early

warning sign of the world's climate crisis. The Arctic "regime" has pioneered many innovative means of governance among often-contentious state and non-state actors. Instead of being the "last white dot on the map," the Arctic is where the contours of our rapidly evolving world may first be glimpsed. In this book, scholars and practitioners—from Anchorage to Moscow, from Nuuk to Hong Kong—explore the huge political, legal, social, economic, geostrategic and environmental challenges confronting the Arctic regime, and what this means for the future of world order.

Jesus and the Samurai - Michael Zomber
2009-11-05

By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. *Jesus and the Samurai* tells their fascinating story with facts drawn from ancient and modern sources. *Historic Tales from the Adirondack Almanack* - John Warren 2009-07-16

Northern New York's Adirondack Park is a naturalist's wonderland of high peaks, plunging chasms, pristine waters, and stunning vistas. In this collection of columns from the popular series the Adirondack Almanack, author John Warren reveals another side of this charming land. Stories of bank robberies, the Ku Klux Klan, gambling, buried treasure, rattlesnakes, and earthquakes abound. Showing careful research and a panache for storytelling, Warren takes the mountain path less traveled, where locals and visitors alike will be surprised by the hidden gems of the Adirondacks.

Arctic Human Development Report - Joan

Nymand Larsen 2015-02-18

The goals of the second volume of the AHDR – Arctic Human Development Report: Regional Processes and Global Linkages – are to provide an update to the first AHDR (2004) in terms of an assessment of the state of Arctic human development; to highlight the major trends and changes unfolding related to the various issues and thematic areas of human development in the Arctic over the past decade; and, based on this assessment, to identify policy relevant conclusions and key gaps in knowledge, new and emerging Arctic success stories. The production of AHDR-II on the tenth anniversary of the first AHDR makes it possible to move beyond the baseline assessment to make valuable comparisons and contrasts across a decade of persistent and rapid change in the North. It addresses critical issues and emerging challenges in Arctic living conditions, quality of life in the North, global change impacts and adaptation, and Indigenous livelihoods. The

assessment contributes to our understanding of the interplay and consequences of physical and social change processes affecting Arctic residents' quality of life, at both the regional and global scales. It shows that the Arctic is not a homogenous region. Impacts of globalization and environmental change differ within and between regions, between Indigenous and non-Indigenous northerners, between genders and along other axes.

communities, and policy makers.

Home By Seven - Steph Jeavons 2020-11-18

One woman's solo journey to ride all seven continents on two wheels Welsh girl Steph Jeavons ran away to see the world. She wanted to see the sunset from every angle. She wanted to see an orangutan and a baobab tree. She wanted to become the first person to circumnavigate the globe and ride a motorcycle on all seven continents - and to sing karaoke on the way. Steph's cravings for escapism manifest themselves in many ways throughout her life.

The book begins in her late teens where she finds herself in prison by the age of twenty. She knows there is a whole world beyond that razor wire just calling out to be explored. Twenty years later, and armed only with a stern tone of voice she reserves for naughty dogs, drunk Turks, Iranian taxi drivers, semi-conscious British soldiers and Saudi truckers, she rides her trusty steed Rhonda the Honda solo around the world, to the highest, driest, wettest, hottest and coldest corners of the

earth. This is a powerful and honest memoir written from the perspective of a liberated single woman taking on the world with a dogged determination to complete her mission at all costs. Home by Seven is told with honesty and wit and from a unique perspective.

Republic of Latvia - International Monetary Fund.
European Dept. 2019-08-07

This Selected Issues paper analyses the implications of global value chains (GVC) participation for Latvia's competitiveness and exposure to risks. Using a structural model, it assesses Latvia's competitiveness through different real effective exchange rate (REER) measures and examines the main factors behind differences in the measures. Based on this analysis, the paper suggests policy options to strengthen Latvia's competitiveness. The paper also estimates the impact of an appreciation of the GVC related REER measure on value added export growth and real GDP growth, and finds sizable effects, suggesting that a rapid labor market tightening could lead to erosion in

competitiveness and reduction in growth. Finally, trade tension induced tariff hikes may have significant cost for Latvia, especially in terms of value added produced in the country. Trade tension induced tariff hikes are likely to have moderate costs for Latvia in terms of value added produced in the country. In this regard, policies aimed at enhancing product sophistication or quality and export market diversification could mitigate Latvia's exposure to trade shocks in GVCs.

Language Regulation in English as a Lingua

Franca - Niina Hynninen 2016-07-11

Language regulation has often been approached from a top-down policy perspective, whereas this book examines regulatory practices employed by speakers in interaction. With its ethnographically informed focus on language regulation in academic English as a lingua franca (ELF), the book is a timely contribution to debates about what counts as acceptable English in ELF contexts, who can act as language expert, and when regulation is needed.
