Marijuana Harvest - Ed Rosenthal 2017-07-01

Marijuana Harvest is the world's first crop science book devoted solely to harvesting, processing and storing award-winning marijuana—now a multi-billion dollar crop. Whether you are a hobby gardener or commercial farmer, Marijuana Harvest shows you how to maximize the yield and quality of your garden. Full-color throughout, the book's descriptive photos make it an attractive guide to the steps needed to harvest, dry, trim, cure and store top-quality buds. Internationally recognized as the number one cultivation author, Ed Rosenthal along with renowned journalist David Downs has thoroughly researched every sector of this book visiting personal gardens and commercial farms observing techniques used as well as experimental methods under development. Winners of prestigious cannabis cups are interviewed and share their tips and advise. Content includes time, labor, and energy saving tools and equipment: Trimmers, climate controls, drying methods, storage systems, workflow charts and much more—Everything a grower needs to know to do

it right. Cut through the clutter of online forums and anecdotal advice to find out how to grow and harvest top-shelf buds, both indoors and out, for use as dried flowers, extracts and edibles—all in stunning, full-color photos and illustrations. For the casual consumer there are tips on how to choose the best-grown and best-tasting buds available. The results are an accessible and informative look at harvest methods for all marijuana users and growers.

Today more Americans than ever before have the ability to grow and cultivate marijuana for medical and personal use. Twenty-three states and Washington D.C. have laws permitting medical cannabis and four states and Washington D.C. have legalized adult-use recreational sales. Momentum is building going into the 2016 presidential elections, with Arcview Market Research predicting an additional 11 states voting in favor of legalization.

The Age of Addiction - David T. Courtwright 2019-05-06

We live in an age of addiction, from compulsive gaming and shopping to binge eating and opioid abuse. What can we do to resist temptations that insidiously and deliberately rewire our brains? Nothing, David Courtwright says, unless we understand the global enterprises whose “limbic capitalism” creates and caters to our bad habits.

Manual of Tests and Criteria - United Nations 2020-01-06

The Manual of Tests and Criteria contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the "Recommendations on the Transport of Dangerous Goods" in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled "Manual of Tests and Criteria".

The Devil's Playbook - Lauren Etter 2021-05-25

"Juul's rise and fall teaches us something about greed, capitalism, policy failure and a particular cycle in American business that seems destined to repeat itself. . . . Deeply reported and illuminating."—The New York Times Book Review (Editors' Choice) Big Tobacco meets Silicon Valley in this gripping exposé of what happened when two of the most notorious industries collided—and the vaping epidemic was born. "The best business book I've read since *Bad Blood*."—Jonathan Eig, bestselling author of *Ali: A Life* Howard Willard lusted after Juul. As the CEO of the parent company of tobacco giant

Philip Morris, he believed the e-cigarette had all the addictive upside of the original without the same apparent health risks and bad press. Meanwhile, Adam Bowen and James Monsees began working on a device meant to destroy Big Tobacco but ended up baking the cigarette industry's DNA into their invention. Juul's e-cigarette was so effective that it put the company on a collision course with Philip Morris, sparking one of the most explosive public health crises in recent memory. Award-winning journalist Lauren Etter tells a riveting story of greed and deception in one of the biggest botched deals in business history. Willard was desperate to acquire Juul, even as his team sounded alarms about the startup's reliance on underage customers. Ultimately, Juul's executives negotiated a deal that let them pocket the lion's share of Philip Morris's \$12.8 billion investment while government regulators and furious parents mounted a campaign to hold the company's feet to the fire. *The Devil's Playbook* is the inside story of how Juul's embodiment of Silicon Valley's "move fast and break things" ethos wrought havoc on American health, how a beleaguered tobacco company was seduced by the promise of a new generation of addicted customers, and how Juul's founders, board members, and employees walked away with a windfall.

WHO Report on the Global Tobacco Epidemic 2019 - World Health Organization 2020-01-10

The report "Offering help to quit tobacco use" tracks the status of the tobacco epidemic and interventions to combat it. The report finds that more countries have implemented tobacco control policies, ranging from graphic pack warnings and advertising bans to no smoking areas. About 5 billion people - 65% of the world's population - are covered by at least one comprehensive tobacco control measure, which has more than quadrupled since 2007 when only 1 billion people and 15% of the world's population were covered.

Dragged Off - Dr. David Dao 2021-03-16

A Vietnamese Refugee, a Viral Video, and the United Airlines Scandal That Started It All “His refusal to give up his seat on a United Airlines flight, and the ensuing assault he suffered, is emblematic of how far we, the people, still have to travel to create a world with liberty and justice for all.” —Marlena Fiol, PhD, globally recognized scholar and speaker and author of *Nothing Bad Between Us* Dr. David Dao was dragged off United Express Flight 3411 on April 9, 2017 after refusing to give up his seat. In the tradition of contemporary immigrant stories comes a personal narrative of the many small but significant acts of racial discrimination faced on the way to the American Dream. The unseen effects of discrimination. The United Airlines scandal of 2017 garnered over a million views on YouTube. A result of an overbooking overlook, security officials forcibly removed Dr. Dao after refusing to give up his seat. He awoke in the hospital to a concussion, a broken nose, several broken teeth, and worldwide attention. Things aren’t always fair for an immigrant, but according to Dr. Dao, you can prevail if you firmly advocate for yourself. A response to a lifetime of oppressive acts. Why was Dr. Dao so adamant on his right to a seat? His entire life had led to that moment. A Vietnamese refugee, he fled his home country during the fall of Saigon. He was stranded in the Indian Ocean, immigrated to the United States, enrolled in medical school for a second time, built a practice, and started a family—all the while battling the effects of discrimination and what he had to embrace as a result. This is his story. If you are moved by immigrant stories, or books like *America for Americans*, *Minor Feelings*, *How to Be an Antiracist*, or *The Making of Asian America*, then you’ll want to read Dr. David Dao’s story, *Dragged Off*.

Falling Hard - Tina Wainscott 2020-07-07

One hot summer night — one bad decision — and two people who should never fall in love... Falling for the girl who accused his brother of rape seven years earlier can only be trouble. Especially when he begins to wonder if she was right. Seven years ago, Gemma tried to clean up her shaky past by dating the clean-cut football captain brother instead of the bad boy racer who revved her heart. But the “good” brother committed an unspeakable act against her, and when the charges were dropped, she left town. Now she must return to the beach town to help her father recover from an accident and face those who called her a liar — and the brother she should have gone for. The one who has everything to lose if he falls for her. What readers are saying about the *Falling Fast* collection... ☆☆☆☆☆ “Falling Hard is the perfect example of going back home to find yourself, and maybe love, in a world full of second chances.” – New York Times bestselling author Jen McLaughlin. ☆☆☆☆☆ “Falling Fast is an emotionally charged story about two people with wounded pasts, and deeply buried secrets, who find their way back to one another.” – New York Times bestselling author Patricia Rosemoor ☆☆☆☆☆ “Falling Fast has wonderful characters you’ll hold in your heart forever. I couldn’t stop reading until I found out if these two star-crossed lovers would be able to survive all the challenges keeping them apart.” – New York Times bestselling author Kathy Clark

Public Health Consequences of E-Cigarettes - National Academies of Sciences, Engineering, and Medicine 2018-05-18

Millions of Americans use e-cigarettes. Despite their popularity, little is known about their health effects. Some suggest that e-cigarettes likely confer lower risk compared to combustible tobacco cigarettes, because they do not expose users to toxicants produced through combustion. Proponents of e-cigarette use also tout the potential benefits of e-cigarettes as devices that could help combustible tobacco cigarette smokers to quit and thereby reduce tobacco-related health risks. Others are concerned about the exposure to potentially toxic substances contained in e-cigarette emissions, especially in individuals who have never used tobacco products such as youth and young adults. Given their relatively recent introduction, there has been little time for a scientific body of evidence to develop on the health effects of e-cigarettes. *Public Health Consequences of E-Cigarettes* reviews and critically assesses the state of the emerging evidence about e-cigarettes and health. This report makes recommendations for the improvement of this research and highlights gaps that are a priority for future research.

Uninvested - Bobby Monks 2015-08-04

Bobby Monks is blowing the whistle on Wall Street, giving middle class Americans the low down on how they're being fleeced of their retirement money—and what they can do about it. Every month our financial statements arrive, and every month we glance at them, trying to understand, hoping that we'll come out ahead. But most of us have no idea what's really going on or the costs involved. According to Bobby Monks—who has been a banker and borrower, investor and entrepreneur—financial firms and money managers have complicated the investing process to keep us in the dark, profiting from our ignorance. Having dealt with the financial sector throughout his career, Monks has seen it all. In *Uninvested*, he reveals how, when, and why the relationship between us and our money managers became corrupted—and what we can do to fix it. Monks shows how the system works not only against us as individuals but also against society at large. Without our

knowledge or approval, our money is diverted into the pockets of CEOs and misappropriated, promoting business practices that contribute to economic inequality, political dysfunction, and environmental woe. Monks' experiences give him a unique perspective on how we got to this point. Drawing on original research and interviews with key figures such as Vanguard founder Jack Bogle, legendary investor Carl Icahn, and former congressman Barney Frank of the Dodd-Frank Act, Monks teaches us how to take back ownership and control of our money. As he writes: Even in the decades preceding the most recent downturn, very few investors enjoyed financial success equal to that of their money managers. Given this, I have long wondered why investors don't pull their money out of the system en masse. I suspect that it is because most feel powerless. Unaware of the implications of their investments and unable to penetrate the excruciating complexity of the system that facilitates them, many seem to seek refuge in their money managers' aura of sophistication, pretense of competence, and projection of certainty. It seems to me that most investors are simply sleepwalking through the investing process. They have become uninvested. When we outsource our investing, we sacrifice control—but not responsibility. My goal in writing this book is to convince you that the best (and only) way to fix this broken system is to awaken a critical mass of engaged investors and recruit them to participate more fully in the investing process.

Cannabis and CBD for Health and Wellness - Aliza Sherman 2019-06-04

A safe, comprehensive, and easy-to-use guide to using cannabis—including CBD and THC—to ease chronic and acute health issues such as pain, insomnia, inflammation, depression, anxiety, grief, stress, and more, from the founder of a global cannabis wellness network and an osteopathic physician. With legalization of recreational cannabis in 10 states and medical marijuana in 33 states, interest is growing in cannabis-related health products, especially those made with CBD—a cannabinoid that has healing properties without the psychoactive effects of THC. *Cannabis and CBD for Health and Wellness* demystifies cannabis and its history, and explains in simple and straightforward language how to use it to treat myriad health and lifestyle issues. With information on cannabis forms (tinctures, topicals, edibles, flowers, concentrates), methods of ingestion (smoking, vaping, capsules, patches, creams, and more), dosing and microdosing, safety and storage, caregiving, and effectiveness for self-care, physical fitness, sexual arousal, aging, and more, this is the only book you need to start using cannabis—in a targeted and safe way—for better health.

[Big Vape](#) - Jamie Ducharme 2021-05-25

'Big Vape is a dazzling story that crackles with the energy of a nicotine buzz, mixing tales of ground-breaking innovation with those of corporate greed and

government dysfunction' Christopher Leonard, author of the New York Times bestseller, *Kochland* It began with a smoke break. _____ THIS IS A STORY OF AMBITION AND GREED James Monsees and Adam Bowen were two ambitious graduate students at Stanford, and in between puffs after class they dreamed of a way to quit smoking. Their solution became the Juul, a sleek, modern device that could vaporize nicotine into a conveniently potent dose. THIS IS A STORY OF BOOM AND BUST The business they built around that device, Juul Labs, would go on to become a \$38 billion company and draw blame for addicting a whole new generation of underage tobacco users. THIS IS A STORY OF OUR TIME With rigorous reporting and piercing insight into a Silicon Valley startup, *Big Vape* uses the dramatic rise of Juul to tell a larger story of big business, Big Tobacco, and the high cost of a product that was too good to be true. _____ A propulsive, eye-opening work of reporting, chronicling the rise of Juul and the birth of a new addiction 'The rise and fall of Juul is an instructive tale and Jamie Ducharme does an excellent job detailing how one bad decision after another led the company astray in this deft rendition of grand start-up dreams gone up in smoke.' Reeves Wiedeman, author of *Billion Dollar Loser* 'Big Vape is more than just brilliantly reported and elegantly written. It is also a richly populated book - filled not just with human characters but with matters of science, finance, invention, ambition, ethics, hubris, and blazing ingenuity.' Jeffrey Kluger, bestselling co-author of *Apollo 13*

A Counterblast to Tobacco - James I (King of England) 1604

The Devil's Playbook - Lauren Etter 2021-05-25

NEW YORK TIMES EDITORS' CHOICE • Big Tobacco meets Silicon Valley in this "deeply reported and illuminating" (The New York Times Book Review) corporate exposé of what happened when two of the most notorious industries collided—and the vaping epidemic was born. "The best business

book I've read since *Bad Blood*."—Jonathan Eig, New York Times bestselling author of *Ali: A Life* Howard Willard lusted after Juul. As the CEO of tobacco giant Philip Morris's parent company and a veteran of the industry's long fight to avoid being regulated out of existence, he grew obsessed with a prize he believed could save his company—the e-cigarette, a product with all the addictive upside of the original without the same apparent health risks and bad press. Meanwhile, in Silicon Valley, Adam Bowen and James Monsees began working on a device that was meant to save lives and destroy Big Tobacco, but they ended up baking the industry's DNA into their invention's science and marketing. Ultimately, Juul's e-cigarette was so effective and so market-dominating that it put the company on a collision course with Philip Morris and sparked one of the most explosive public health crises in recent memory. In a deeply reported account, award-winning journalist Lauren Etter tells a riveting story of greed and deception in one of the biggest botched deals in business history. Etter shows how Philip Morris's struggle to innovate left Willard desperate to acquire Juul, even as his own team sounded alarms about the startup's reliance on underage customers. And she shows how Juul's executives negotiated a lavish deal that let them pocket the lion's share of Philip Morris's \$12.8 billion investment while government regulators and furious parents mounted a campaign to hold the company's feet to the fire. *The Devil's Playbook* is the inside story of how Juul's embodiment of Silicon Valley's "move fast and break things" ethos wrought havoc on American health, and how a beleaguered tobacco company was seduced by the promise of a new generation of addicted customers. With both companies' eyes on the financial prize, neither anticipated the sudden outbreak of vaping-linked deaths that would terrorize a nation, crater Juul's value, end Willard's career, and show the costs in human life of the rush to riches—while Juul's founders, board members, and employees walked away with a windfall.

Allen Carr's Easy Way to Quit Vaping - Allen Carr 2021-03-31

Allen Carr's Easyway method is a global phenomenon - a clinically proven and 100% drug-free treatment for nicotine addiction. First used as an internationally renowned and incredibly successful stop-smoking method, this cutting-edge approach now addresses the fastest-growing nicotine delivery system in the world, vaping. The Easyway method tackles addiction from an entirely different angle. Rather than employing scare-tactics and enforcing painful restrictions on your vaping habits, it unravels the cognitive brainwashing behind your addictive behaviour. In this way, it removes the desire to vape altogether without willpower or sacrifice. Whether you use e-cigarettes, JUUL, tanks or pens, or any kind of mod or pod, this method will work for you. All you have to do is read this book in its entirety, follow all of the instructions and you will be set free from your addiction to nicotine. •

Does not rely on willpower, aids, substitutes, or gimmicks • Works without unpleasant withdrawal symptoms • Clinically proven to be AT LEAST as effective as the UK Health Service's Gold Standard Stop Smoking Service. What people say about Allen Carr's Easyway method: "His skill is in removing the psychological dependence." The Sunday Times "It was such a revelation that instantly I was freed from my addiction." Sir Anthony Hopkins "Allen Carr achieved what I never thought was possible - to give up a thirty year habit literally overnight" Anjelica Huston

Crowdsourced Health - Elad Yom-Tov 2016-03-18

Most of us have gone online to search for information about health. What are the symptoms of a migraine? How effective is this drug? Where can I find more resources for cancer patients? How to Smoke Pot (Properly) - David Bienenstock 2016-04-12

"A humorous and informative trip through the drug's various medicinal compounds, a timeline of its history, and recipes that take you beyond the

standard pot brownie—with pro tips from cannabis-friendly celebrities sprinkled throughout.”—Vanity Fair Once literally demonized as “the Devil’s lettuce,” and linked to all manner of deviant behavior by the establishment’s shameless anti-marijuana propaganda campaigns, cannabis sativa has lately been enjoying a long-overdue Renaissance. So now that the squares at long last seem ready to rethink pot’s place in polite society, how, exactly, can members of this vibrant, innovative, life-affirming culture proudly and properly emerge from the underground—without forgetting our roots, or losing our cool? In *How to Smoke Pot (Properly)*, VICE weed columnist and former High Times editor David Bienenstock charts the course for this bold, new, post-prohibition world. With plenty of stops along the way for “pro tips” from friends in high places, including cannabis celebrities and thought leaders of the marijuana movement, readers will learn everything from the basics of blazing, to how Mary Jane makes humans more creative and collaborative, nurtures empathy, catalyzes epiphanies, enhances life’s pleasures, promotes meaningful social bonds, facilitates cross-cultural understanding, and offers a far safer alternative to both alcohol and many pharmaceutical drugs. You’ll follow the herb’s natural lifecycle from farm to pipe, explore cannabis customs, culture and travel, and discover how to best utilize and appreciate a plant that’s at once a lifesaving medicine, an incredibly nutritious food, an amazingly useful industrial crop, and a truly renewable energy source. You’ll even get funny and informative answers to burning questions ranging from: How can I land a legal pot job? to Should I eat a weed cookie before boarding the plane? In two-color, with charts and illustrations throughout, *How to Smoke Pot (Properly)* is truly a modern guide to this most revered herb.

Those People - Louise Candlish 2019

From the author of the international bestseller *Our House*, a new novel of twisty domestic suspense asks, “Could you hate your neighbor enough to plot to kill him?” Lowland Way is the suburban dream. The houses are beautiful,

the neighbors get along, and the kids play together on weekends. But when Darren and Jodie move into the house on the corner, they don’t follow the rules. They blast music at all hours, begin an unsightly renovation, and run a used-car business from their yard. It doesn’t take long for an all-out war to start brewing. Then, early one Saturday, a horrific death shocks the street. As police search for witnesses, accusations start flying--and everyone has something to hide.

Chemical Youth - Anita Hardon 2020-11-14

This open access book explores how young people engage with chemical substances in their everyday lives. It builds upon and supplements a large body of literature on young people’s use of drugs and alcohol to highlight the subjectivities and socialities that chemical use enables across diverse socio-cultural settings, illustrating how young people seek to avoid harm, while harnessing the beneficial effects of chemical use. The book is based on multi-sited anthropological research in Southeast Asia, Europe and the US, and presents insights from collaborative and contrasting analysis. Hardon brings new perspectives to debates across drug policy studies, pharmaceutical cultures and regulation, science and technology studies, and youth and precarity in post-industrial societies.

Electronic Cigarettes and Vape Devices - Susan Chu Walley 2021-08-12

Electronic cigarettes (E-cigarettes), also known as vape devices or by trade names such as JUUL, are handheld devices that aerosolize liquid commonly containing nicotine, humectants and flavorings. Used by 1 in 5 high school students in 2020, they are the most common tobacco product used by youth.

E-cigarette use has been associated with a variety of health issues such as nicotine addiction, e-cigarette or vaping associated lung illness (EVALI), seizures, and increased risk of cardiovascular disease. This first-of-its-kind book begins with an introduction and background on the historical context of tobacco products. The next chapters provide an overview of the e-cigarette landscape and reviews the e-cigarette devices and solutions and the evolution of these products. This is followed by reviews of the health effects of e-cigarettes on users and non-users and includes recommendations for prevention and treatment of youth e-cigarette use. The last few chapters address the public health impact of e-cigarettes with a review of the evidence of e-cigarettes in smoking cessation. The book closes with policy and advocacy approaches and a resource page. E-cigarette and vape device use pose a public health crisis. This book contains succinct practical information and is a key reference for pediatricians as well as clinicians of all specialities. It also serves as a resource for health professionals, including tobacco dependence treatment providers and public health experts.

The Handbook of Cannabis Therapeutics - Ethan B. Russo 2014-05-22

Learn the facts behind the pharmacology and pharmacokinetics of controversial cannabis therapeutics The Handbook of Cannabis Therapeutics: From Bench to Bedside sets aside the condemnation and hysteria of society's view of cannabis to concentrate on the medically sound aspects of cannabis

therapeutics. The world's foremost experts provide a reasoned, thoroughly researched overview of the controversial subject of cannabis, from its history as a medicine through its latest therapeutic uses. The latest studies on the botany, history, biochemistry, pharmacology, toxicology, clinical use for various illnesses such as AIDS, epilepsy, and multiple sclerosis, and side effects of marijuana are all examined and discussed in depth. This comprehensive resource is a compendium of articles from the Journal of Cannabis Therapeutics—with additional contemporary commentary. It presents startling research that explores and supports the medicinal value of cannabis use and its derivatives as a valid therapeutic resource for pain and inflammation, for several illnesses less responsive to other therapies, and even for certain veterinary uses. Cannabinoids such as nabilone, THC, levonantradol, ajulemic acid, dexamabinal, and others are extensively described, with a review of new indications for cannabinoid pharmaceuticals. The book is carefully referenced to encourage your examination of previous studies and provides tables and figures to enhance understanding of information. The Handbook of Cannabis Therapeutics discusses: the uses of cannabis in Arabic, Greek, Roman, and early English medicines absorption rates pharmacokinetics pharmacodynamics separate extracts versus the use of cannabis in its entirety the therapeutic value of the endocannabinoid system cannabinoids and newborn feeding a comparison of smoking versus oral preparations clinical research data on eating cannabis therapeutic uses as appetite stimulant treatments in obstetrics and gynecology medicinal treatments used in Jamaica the use of cannabis in the treatment of multiple sclerosis the benefits versus the adverse side effects of cannabis use The Handbook of Cannabis Therapeutics is a reference work certain to become crucial to physicians, psychologists, researchers, biochemists, graduate students, and interested members of the public.
