Then you'll move quickly on to more challenging and engaging exercises, including word games, dimensional shapes, and inventive sketchbooks and letterforms, eventually creating a "toolkit" of ideas and skills developed through the process of play. This book features creative, adaptable ideas, and numerous examples of designers and artists responses to each exercise, giving you a peek into their way of thinking and seeing.

Hello World: A Life in Ham Radio - Danny Gregory 2003-03

To an outsider, the world of ham radio is one of basement transmitters, clunky microphones, Morse code, and crackly, possibly clandestine, worldwide communications, a world both mysterious and geeky. But the real story is a lot more interesting: indeed, there are more than two million operators worldwide, including people like Walter Cronkite and

Priscilla Presley. Gandhi had a ham radio, as do Marlon Brando and Juan Carlos, king of Spain. Hello World takes us on a seventy-year odyssey through the world of ham radio. From 1927 until his death in 2001, operator Jerry Powell transmitted radio signals from his bedroom in Hackensack, New Jersey, touring the worlds most remote locations and communicating with people from Greenland to occupied Japan. Once he made contact with a fellow ham operator, he exchanged postcards known as QSLs cards with them. For seven decades, Powell collected hundreds of these cards, documenting his fascinating career in amateur radio and providing a dazzling graphic inventory of people and places far flung. This book is both an introduction to the fascinating world of ham and a visual feast for anyone interested in the universal language of graphic design.

Children's Picturebooks - Martin Salisbury 2012-01-30

Children's picturebooks are the very first books we encounter, and they form an important, constantly evolving, and dynamic sector of the publishing world. But what does it take to create a successful

picturebook for children? In seven chapters, this book covers the key stages of conceiving a narrative, creating a visual language and developing storyboards and design of a picturebook. The book includes interviews with leading children's picturebook illustrators, as well as case studies of their work. The picturebooks and artists featured hail from Australia, Belgium, Cuba, France, Germany, Hungary, Ireland, Italy, Japan, Norway, Poland, Portugal, Russia, Singapore, South Korea, Spain, Taiwan, the UK and the USA. In this publication, Martin Salisbury and Morag Styles introduce us to the world of children's picturebooks, providing a solid background to the industry while exploring the key concepts and practices that have gone into the creation of successful picturebooks.

In the Bubble - John Thackara 2006-02-17

How to design a world in which we rely less on stuff, and more on people. We're filling up the world with technology and devices, but we've lost sight of an important question: What is this stuff for? What value does it add to our lives? So asks author John Thackara in his new book, *In the Bubble: Designing for a Complex World*. These are tough questions for the pushers of technology to answer. Our economic system

is centered on technology, so it would be no small matter if "tech" ceased to be an end-in-itself in our daily lives. Technology is not going to go away, but the time to discuss the end it will serve is before we deploy it, not after. We need to ask what purpose will be served by the broadband communications, smart materials, wearable computing, and connected appliances that we're unleashing upon the world. We need to ask what impact all this stuff will have on our daily lives. Who will look after it, and how? *In the Bubble* is about a world based less on stuff and more on people. Thackara describes a transformation that is taking place now—not in a remote science fiction future; it's not about, as he puts it, "the schlock of the new" but about radical innovation already emerging in daily life. We are regaining respect for what people can do that technology can't. *In the Bubble* describes services designed to help people carry out daily activities in new ways. Many of these services involve technology—ranging from body implants to wide-bodied jets. But objects and systems play a supporting role in a people-centered world. The design focus is on services, not things. And new principles—above all, lightness—inform the way these services are designed and used. At the heart of *In the Bubble* is a belief, informed by a wealth of real-world examples, that ethics and responsibility can inform design decisions without impeding social and technical innovation.

The Creative License - Danny Gregory 2005-12-21

When Danny Gregory's life was turned upside down by tragedy, he learned to cope by teaching himself to draw. The result was a complete transformation of his life, his priorities, his career, and the way he saw the world. In handwritten chapters full of his lush watercolor illustrations, Danny now offers readers a program for reconnecting to their own creative energies, using drawing as an example. He gently instructs us in the art of allowing ourselves to fail, giving up the expectation of perfection and opening our eyes to the beauty around us. The result is the permission to express ourselves fully and take part in the creative process without fear. Artist or not, readers of all stripes will find inspiration in this unique and beautiful book.

The Book of Doing - Allison Arden 2012-04-03

When did you last take the time to do the things you loved as a child: crafts, games, getting your hands dirty? Or feel the same delight and wonder that you took from your favorite childhood activities? Despite the joy we gained from these pursuits, in our adult lives, we've left them behind—they're too frivolous, we're too busy or too old, and there's too much "real" work to do. It's time to change this mind-set. It's time to rediscover the things you love to do, because they energize, center, and connect you with the world in a meaningful and positive way. The Book of Doing offers a collection of ideas and activities that encourage you to use your life as a canvas and explore your creativity through everything you do—to create and make, to explore and experiment, to play and build, to paint and cook—to do. Go ahead. Roll up your sleeves and get to it. It's time to do the things that make you happiest.

Sketch! - France Belleville-Van Stone 2014-11-04

Drawing activities, art instruction, and advice for artists and non-artists alike. Urban sketching—the process of drawing on the go as a regular practice—is a hot trend in the drawing world. It's also a practical necessity for creatively minded people in a busy world. In this aspirational guide, self-taught French artist France Belleville-Van Stone emboldens readers to craft a ritual of their own and devote more time to art, even if it's just 10 minutes a day. She offers motivation to move beyond the comfort zone, as well as instruction on turning rough sketches into finished work. Belleville Van-Stone learned how to draw through her own daily practice and knows first-hand how hard it is to find time to incorporate creativity into a busy life. She encourages and teaches us how to do it with advice and guidance such as: · An A-to-Z list of daily sketch prompts, from airports to bananas, faces to hands, meetings and workplaces · Tips on what drawing supplies you can and should have—and how to carry them around · Sections on accepting mistakes, drawing with limited resources, and redefining completion · Pluses and minuses of going digital, including apps, styluses, and brushes For those of us who dream of drawing in the minutes between school and work, bathtime and bedtime, and waking and walking out the door, the practical advice in Sketch! is a revelation. By sharing her own

creative process, Belleville-Van Stone Sketch inspires artists both established and aspiring to rethink their daily practice, sketch for the pure joy of it, and document their lives and the world around them.

An Illustrated Life - Danny Gregory 2008-12-16

Find Insight and Inspiration for Your Creative Life An artist's journal is packed with sketches and captions; some rough, some polished. The margins sometimes spill over with hurriedly scrawled shopping lists and phone numbers. The cover may be travel-worn and the pages warped from watercolors. Open the book, and raw creativity seeps from each color and line. The intimacy and freedom on its pages are almost like being inside the artist's mind: You get a direct window into risks, lessons, mistakes, and dreams. The private worlds of these visual journals are exactly what you'll find inside *An Illustrated Life*. This book offers a sneak peek into the wildly creative imaginations of 50 top illustrators, designers and artists. Included are sketchbook pages from R. Crumb, Chris Ware, James Jean, James Kochalka, and many others. In addition, author Danny Gregory has interviewed each artist and shares their thoughts on living the artistic life through journaling. Watch artists—through words and images—record the world they see and craft the world as they want it to be. The pages of *An Illustrated Life* are sometimes startling, sometimes endearing, but always inspiring. Whether you're an illustrator, designer, or simply someone searching for inspiration, these pages will open a whole new world to you.

Everyday Matters - Danny Gregory 2007-01-09

In the tradition of *Persepolis*, *In the Shadow of No Towers*, and *Our Cancer Year*, an illustrated memoir of remarkable depth, power, and beauty Danny Gregory and his wife, Patti, hadn't been married long. Their baby, Jack, was ten months old; life was pretty swell. And then Patti fell under a subway train and was paralyzed from the waist down. In a world where nothing seemed to have much meaning, Danny decided to teach himself to draw, and what he learned stunned him. Suddenly things had color again, and value. The result is *Everyday Matters*, his journal of discovery, recovery, and daily life in New York City. It is as funny, insightful, and surprising as life itself.

Renew! - Shawna Coppola 2017

When was the last time you shook up your writing instruction? In *Renew!*: Become a Better and More Authentic Writing Teacher, author Shawna Coppola builds on the premise that our students are ever-changing, and so is our collective knowledge base. Instructional strategies that have worked in the past may need to evolve accordingly. Coppola guides K-8 writing teachers with a three-part framework for Rethinking, Revising, and Renewing their approach—and finding new energy along the way. Using the framework, *Renew!* examines the most pervasive educational practices in writing instruction and poses questions that guide teachers to revise those practices to ensure they are effective for all students. Coppola believes the work is challenging, yet critical, referencing R. Buckminster Fuller's "Knowledge Doubling Curve:" According to Fuller's paradigm, the amount of time it takes for us to increase our collective knowledge base by 100 percent will continue to shrink the older we get. If this is true—or even close to being true—how can we, as educators, ever feel satisfied with teaching our students the same concepts, using the same methodologies and practices, that we have in the past? The book offers a road map for renewing key aspects of our practice, including: How we teach the writing process: Over time and frequent usage, some of our favorite teaching strategies can become rigid. Coppola gives a candid account of how her enthusiasm for "the writing process" as an undergraduate led her to teach writing for years as a set of pre-determined steps. Now she teaches that there are many variations of the writing process, and many twists and turns along the path. One foundational strategy used is opening up her own process as a writer—and her writer's notebook—to students and encouraging them to think and talk about their process with classmates. What we mean by "Writing:" Coppola argues that drawing isn't an accompaniment to writing; it is writing. Its another form of composition through which students can tell stories, convey ideas, and

engage readers. The book is full of visual compositions by students as well as Shawna's wonderfully simple and evocative sketches from her writer's notebook. The tools we use to teach writing: The most ubiquitous tools used to teach writing--from anchor charts to graphic organizers to sentence starters etc.--tend to be teacher-centric rather than student-centric. *Renew!* invites students into the process of constructing tools that are meaningful and helpful to them. The book includes a range of examples of tools built collaboratively with students. How we assess and evaluate student writing: Coppola draws a distinction between assessment--which should be an interactive conversation with students--and evaluation, which is about judging and categorizing what students know and can do. *Renew!* offers a range of examples and resources that illustrate effective feedback for student writers, including online videos of teacher-student and peer-to-peer conferences. *Renew!* also offers ideas for how teachers can nurture their own writing lives and thus reinvigorate their instructional practice. Through rethinking, revising, and renewing their practice, teachers can not only strengthen students' skills as writers, but also nurture students to become critical thinkers, problem solvers, and risk takers in the classroom and in our rapidly-changing world.

A Kiss Before You Go - Danny Gregory 2016-07-26

After the loss of his wife in a tragic accident, beloved artist Danny Gregory chronicled his grief in the medium he knows best—the pages of his illustrated journals. This intimate reproduction of his journal is a stirring visual memoir of Gregory's journey towards recovery. Uniquely sincere, and by turns tender, raw, and hopeful, Gregory's idiosyncratic text and illustrations capture the darkest and lightest moments of his "year of magical drawing." Gregory's process reminds us that creative expression offers its own therapy, and that living each day to its fullest may be as simple as putting pen to paper. Anyone who has experienced loss will take solace in this refreshingly candid look at grieving, while art

lovers will marvel at the artist's beautiful celebration of the power of creation.

Teach Them All to Think - Dr. Muriel Gerhard 2017-03-24

It just happened! There they were! Shouting! "Put it in a book! The research is significant! The magazine "Grade Teacher" devoted the whole issue to the research. What is significant is that we can teach for thinking! We can improve our pupil's cognitive skills, be they decision-making, creativity, analysis, problem-solving, inductive and deductive reasoning, as well as concept development, to mention just a few. It all began when I had given a presentation at the ASCD convention addressing over 500 educators following a nine-year study on inquiry and cognitive-centered teaching funded by The Ford Foundation and now found myself mobbed by publishers to "PUT IT IN A BOOK! The book was written in ten weeks and it sold and sold and sold one hundred thousand copies and --- was translated into many foreign languages. This resulted in teaching pupils at all grade levels to process information, to develop conceptual frameworks and in depth understanding of the content in all

disciplines be it mathematics, the sciences, the social science, music and the arts. Learners developed and “grew” concepts and conceptual frameworks and really understood the material as opposed to mouthing memorized sequences of words. Let me show you what I am trying to convey. I visited a first grade class and there they were singing praises to TWO, chanting One and One is TWO. Then it happened! One little boy raised his hand and blurted out, “What`s a two? We live in a conceptual world. Whether we are teaching kindergarten children their ABCs or graduate students advanced mathematics, we must teach so that they truly understand what they are talking about, so that they can develop concepts, simple concepts first and then more intricate concepts. That my friends is--- what learning is all about. My career has spanned over sixty years spent examining, researching, developing, writing and teaching various methods teachers can use to educate our children more effectively. So here it is, an updated version of the original book, designed for the digital age and our digital destiny providing our new generation with the critical cognitive skills to deal with a very challenging future! The processes and strategies are clearly delineated and applicable to every discipline at every level of instruction. These have been researched and evaluated. In sum, the world has become far more complex than any of us as educators could have envisioned. We are being deluged with the new, the unknown. We will need thinkers and problem solvers. Teach them all to think. Need I say more?

Reinventing Cinema - Chuck Tryon 2009-06-29

For over a century, movies have played an important role in our lives, entertaining us, often provoking conversation and debate. Now, with the rise of digital cinema, audiences often encounter movies outside the theater and even outside the home. Traditional distribution models are challenged by new media entrepreneurs and independent film makers, usergenerated video, film blogs, mashups, downloads, and other expanding networks. Reinventing Cinema examines film culture at the turn of this century, at the precise moment when digital media are altering our historical relationship with the movies. Spanning multiple disciplines, Chuck Tryon addresses the interaction between production,

distribution, and reception of films, television, and other new and emerging media. Through close readings of trade publications, DVD extras, public lectures by new media leaders, movie blogs, and YouTube videos, Tryon navigates the shift to digital cinema and examines how it is altering film and popular culture.

Terpsichore in Sneakers - Sally Banes 2011-03-01

Drawing on the postmodern perspective and concerns that informed her groundbreaking *Terpsichore in Sneakers*, Sally Bane's *Writing Dancing* documents the background and development of avant-garde and popular dance, analyzing individual artists, performances, and entire dance movements. With a sure grasp of shifting cultural dynamics, Banes shows how postmodern dance is integrally connected to other oppositional, often marginalized strands of dance culture, and considers how certain kinds of dance move from the margins to the mainstream. Banes begins by considering the act of dance criticism itself, exploring its modes,

methods, and underlying assumptions and examining the work of other critics. She traces the development of contemporary dance from the early work of such influential figures as Merce Cunningham and George Balanchine to such contemporary choreographers as Molissa Fenley, Karole Armitage, and Michael Clark. She analyzes the contributions of the Judson Dance Theatre and the Workers' Dance League, the emergence of Latin postmodern dance in New York, and the impact of black jazz in Russia. In addition, Banes explores such untraditional performance modes as breakdancing and the "drunk dancing" of Fred Astaire. Ebook Edition Note: All images have been redacted.
