Scottish Land-Names, Their Origin and Meaning. - Herbert Maxwell 2008-10

PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say

that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written- and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is depend- ent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream- fisher is dependent for

a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd.

Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

Philip's Driver's Atlas Britain 2007 - George Philip & Son 2006

An excellent value atlas featuring fully updated cartography from Philip's digital database, which has been voted Britain's clearest and most detailed mapping in an independent consumer survey and now includes speed camera locations. This atlas includes all the mapping features normally included only in more expensive road atlases. The front section includes route-planner, distance table, legend, London street map, chart of motorway junctions with restricted access, and key map. The road map section includes 96 pages of large-scale mapping covering Britain at 3 miles to 1 inch (north Scotland at 4 miles to

1 inch), marking all fixed speed cameras as well as full road network and town and village details. The town plan section includes 53 town centre maps, marking car parks and places of interest. The comprehensive index includes 28,000 names. Main map scale: 3 miles to 1 inch

The Statistical Account of Scotland - Sir John Sinclair 1792

The Medical Register - 1980

Contains the names of medical practitioners registered with the General Medical Council of Great Britain. Data includes name and date of registration, address, registered qualifications, and registration number. Also includes information on the Council, registration statistics, and registrable qualifications granted in the United Kingdom, the Republic of Ireland, in member states of the European Economic Community, and recognized overseas

(selected British Commonwealth) qualifications.

Glasgow Rivers and Streams - Theodore Charles Ferdinand Brotchie 2017-07-25

Excerpt from Glasgow Rivers and Streams: Their Legend and Lore I have endeavoured to suggest the historic and literary charm which clings to these storied streams. They are charged with splendid pictorial possibilities, and much antiquarian lore and folk memory still linger on their banks. I sincerely hope that as these pilgrimages interested me, they may also prove interesting to other wayfarers in this the land we love the most. Several of the chapters were published in the Glasgow Evening Times, and for permission to reproduce these I am indebted to the proprietors of that newspaper. I have added much to the material, carefully sifting the facts, and conscientiously verifying the references. My debt to Scottish writers in general and Glasgow authors in particular is a large one. I trust it is fully acknowledged in the foot notes. About the Publisher Forgotten Books publishes hundreds of thousands of

rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

The Antonine Wall: Papers in Honour of

Professor Lawrence Keppie - David J. Breeze 2020-04-03

32 papers present research on the Antonine Wall in honour of Lawrence Keppie. Papers cover a wide variety of aspects: the environmental and prehistoric background; structure, planning and construction; military deployment; associated artefacts and inscriptions; logistics of supply; the people of the Wall, including womenfolk and children.

Railway Map of England & Wales and Scotland - Ian Allan Ltd 1948

Roman Scotland - David John Breeze 1996
The Romans tried to conquer Scotland three times 2000 years ago. These forays have left their mark, which can still be seen in the form of earthworks - the remains of forts and frontiers constructed by the army. This study shows the effect of these periods of occupation on Scotland and its people.

Prize Essays and Transactions - Highland and agricultural society of Scotland, Edinburgh 1897

Medical Directory - 1969

A listing of medical practitioners registered with the General Medical Council. Includes

England, Scotland, Wales, and Northern Ireland. Data includes name, address, degrees, colleges, appointment, memberships, and publications. Also contains information on United Kingdom hospitals, NHS trusts, and boards of health.
