Audiovisual Methods in Teaching - Edgar Dale 1969

Abstract: This revision emphasizes the use of audiovisual materials as an integral and vital part of a particular program of instruction and serves as a practitioner's guide to their selection and utilization. The teacher is viewed as a manager, organizer, and evaluator of learning experiences as well as a motivator of students. Audiovisual methods are viewed as an important part of the communication process that undergirds education. The text begins with a discussion of the theory and practice of audiovisual teaching followed by chapters dealing with selected audiovisual methods. Methods discussed include contrived experiences, purposeful experiences, demonstrations, study trips, exhibits, educational television, motion pictures, still pictures, radio, and recordings. A final section deals with the role of systems and technology in teaching and the educational process.

The Third Wave - Alvin Toffler 2022-01-04

From the author of Future Shock, a striking way out of today's despair . . . a bracing, optimistic look at our new potentials. The Third Wave makes startling sense of the violent changes now battering our world. Its sweeping synthesis casts fresh light on our new forms of marriage and family, on today's dramatic changes in business and economics. It explains the role of cults, the new definitions of work, play, love, and success. It points toward new forms of twenty-first-century democracy. Praise for The Third Wave "Magnificent . . . an astonishing array of information."—The Washington Post "Imperishably fresh."—Business Week "Will mesmerize readers, and rightly so."—Vogue "Alvin Toffler . . . has written another blockbuster . . . a powerful book."—The Guardian "Fresh ideas, clearly explained. . . . Toffler has proven again that he is a master."—United Press International "Toffler has imagination and an ability to think of various future possibilities by transcending prevailing values, assumptions and myths."—Associated Press "Once you have walked into his version of the future, you may decide never again to whitewash some of the built-in frailties of the real present."—Financial Post "Rich, stimulating and basically optimistic . . . will unquestionably aid many to a greater understanding of [today's] puzzling social changes."—The Globe & Mail "A detailed breathtakingly bold projection of the social changes required if we are to survive. . . . Toffler's vision of a democratic, self-sustaining utopia is a brave alternative to recent grim warnings."—Cosmopolitan

Penggunaan Media dan Aplikasi Pembelajaran Daring pada Masa Pandemi Covid-19 - Ridwan Abdullah Sani 2022-05-19

Buku ini memuat kumpulan hasil penelitian tentang penggunaan media/aplikasi pembelajaran pada masa pandemi covid-19. Instrumen penelitian yang digunakan oleh para peneliti dibuat seragam, kecuali panduan wawancara. Namun analisis dan pemaparan data dilakukan sesuai dengan minat masing-masing peneliti. Hasil penelitian ditulis dalam bentuk bab (Book Chapter) oleh masing-masing peneliti dan diedit oleh editor agar mudah dipahami oleh pembaca. Para peneliti merupakan civitas academica Universitas Negeri Medan, yakni dosen fisika dan mahasiswa pendidikan fisika program pascasarjana. Penelitian merupakan tugas mini riset mata kuliah Desain dan Media Pembelajaran dengan dosen pengampu Dr. Ridwan Abdullah Sani, M.Si dan Dr. Jubaidah, M.Si. Mini riset merupakan tugas proyek perkuliahan sebagai implementasi program Merdeka Belajar. Sasaran yang ingin dicapai dengan pelaksanaan mini riset adalah meningkatkan kemampuan mahasiswa berpikir kritis sebagai bagian dari keterampilan abad 21. Pada masa pandemi covid-19, hampir semua guru menggunakan WhatsApp (WA) sebagai aplikasi/media utama karena mereka telah terbiasa menggunakan media sosial tersebut dalam kehidupan sehari-hari. Terbukti bahwa beberapa guru cepat belajar, terutama guru muda, sehingga mampu menggunakan berbagai aplikasi (Zoom, Google Meet, Google Classroom, Quizziz, Edmodo, WordWall, Mentimeter, dll) dalam melaksanakan pembelajaran daring. Pada masa depan jika telah dikembangkan aplikasi/media yang dapat digunakan untuk melaksanakan pembelajaran secara efektif, dipercaya bahwa sebagian besar guru akan

mampu menguasai aplikasi/media tersebut. Persiapan untuk implementasi pembelajaran bauran (blended learning) perlu diantisipasi agar kualitas pendidikan di Indonesia tidak jauh tertinggal dari negara lain. Penelitian yang dilaporkan dalam book chapter ini diharapkan dapat membantu para pihak yang berkepentingan untuk meningkatkan kualitas pendidikan. Hasil penelitian juga dapat dijadikan sebagai referensi bagi peneliti lainnya untuk mengungkap permasalahan dan solusi bagi implementasi pembelajaran daring.

Instructional Technology - Barbara B. Seels 2012-10-01

The Association officially endorses this definition of Instructional Technology which has been developed over three years by the Committee on Definition and Terminology. The Association recognizes that other theoretical frameworks exist and that these are valid, but believes that these are part of the more inclusive theoretical framework of Instructional Technology used in this definition. In making this definition and the document explaining it available, we hope to help other organizations clarify their relationship to the broad field of Instructional Technology. Although the Association offers this definition as its current position, it is committed to a continuous reevaluation of the definition and to revising and publishing it so that it reflects changing concepts and terminology. A document of this magnitude can only be produced as the result of the dedication and effort of the persons who formed the committee and of its chairperson, Barbara Seels and her collaborator, Rita C. Richey. Without their energies, skill, perseverance, and willingness to risk stating their perceptions in this format we could not have offered this document. Whether or not we agree with the statements presented here, they will provide a benchmark and a point of dialogue for further development of a profession which seeks to provide conditions for effective learning.

Became an Excellent Principal - DR.Fahrudin, M.Si. 2014-02-25

""Dalam buku ini terpapar pengalaman-pengalaman Penulis ketika dipercaya oleh Chairul Tanjung mengelola SMA UCTF. Penulis tidak memiliki pengalaman sama sekali dalam mengelola sekolah yang terpaksa dipelajarinya secara autodidak dan dilakukan dari nol dengan kerja sama tim yang saling bersinergis. Setiap hari, Penulis berpikir keras untuk melakukan suatu terobosan [Apa lagi yang harus saya lakukan untuk sekolah ini?] Cita-cita luhur dari CTF untuk jangka panjang adalah sebagai pilot project dan membangun citra [orang miskin pun bisa berprestasi], dan menjadikan SMA UCTF sebagai sekolah unggulan yang diperhitungkan baik tingkat nasional maupun tingkat internasional. CT Foundation memberikan bantuan beasiswa penuh hingga masuk perguruan tinggi bagi anak yang berasal dari keluarga miskin tapi memiliki kecerdasan istimewa. Penulis bersedia memberikan pelatihan/motivasi bagi kepala sekolah dan guru, hubungi email: fahrudin65@gmail.com.""

History and Social Theory - Peter Burke 2018-07-26

What is the use of social theory to historians, and of history to social theorists? In clear and energetic prose, a pre-eminent cultural historian here offers a far-reaching response to these deceptively simple questions. In this classic text, now revised and updated in its second edition, Peter Burke reviews afresh the relationship between the fields of history and the social sciences and their tentative convergence in recent decades. Burke first examines what uses historians have made - or might make - of the models, methods, and concepts of the social sciences, and then analyzes some of the intellectual conflicts, such as the opposition between structure and human agency, which are at the heart of the tension between history and social theory. Throughout, he draws from a broad range of cultures and periods to illustrate how history, in turn, has been used to create and validate social theories. This new edition brings the book up to date with the addition of examples and discussions of new topics such as social capital, globalization and post-colonialism. The second edition of *History and Social Theory* will continue to stimulate both students and scholars across a range of disciplines with its challenging assessment of the roles of history and social science today.

ICSSD 2020 - Muhammad Nur Sa'ban 2020-11-04

The theme of the conference is "Reconstructing Morals, Education, and Social Sciences for Achieving Sustainable Development Goals". This theme was formulated due to several considerations. First, the symptoms of moral decline that have the potential to destroy the nation. Morals guide humanity towards truth and civilization. The phenomenon of the dehumanization process in the industrial era that pushed people to be part of abstract societies tends to ignore humanity. The education process as a humanitarian system is increasingly marginalized, especially during discussions about the industrial revolution 4.0 and Society 5.0. The conference placed six sub-themes for speakers and participants to share ideas, namely: Social Sciences and Laws, History and Cultural Studies, Interdisciplinary Studies, Morals and Humanities, Policy, Politics, and Communication, Education. The committee has received 195 abstracts from prospective speakers. However, there are only 80 abstracts that are eligible to be presented at this conference.

Thinking Geographically - Brendan Bartley 2004-10-01

Thinking Geographically offers students and faculty alike an elegant, concise, and thorough overview of contemporary theoretical concerns in geography. Easily accessible to those unfamiliar with social theory, this volume "pushes the envelope" of understanding by sketching the contours of post-structuralist spatial thought, including such critical

emerging topics as geographies of text, the body, money, and globalisation. Brief biographies of influential theorists demonstrate how ideas are embodied and personified. This volume is highly useful for courses in human geography, the history and status of the discipline, and will stand as a milestone in the discipline's conceptual understanding over the next decade or more." Barney Warf, Florida State University The last decade has seen Geography transformed by an astonishing range of cultural and philosophical concepts and approaches. Thinking Geographically is designed for students as an accessible and enjoyable introduction to this new landscape of geographical ideas. The book takes the reader through the history of geographic thought up to a survey of the present. Contemporary theory is then used to explore real world issues drawn from across the discipline of social, cultural, political and economic geography. Entertainingly written and packed with examples and with profiles of key theorists, the book is an ideal introduction for any student who wants to discover the potential of thinking geographically.

Educational Technology - Al Januszewski 2013-01-11

Sponsored by the Association for Educational Communications and Technology (AECT), this book presents a definition of the field of study and practice known as educational technology or instructional technology. It reflects the collaborative efforts of all members of the AECT Definition and Terminology Committee. The volume begins with the statement of the definition itself (chapter 1), followed by commentary chapters on each of the key terms and concepts contained in the definition (chapters 2-9). Chapter 10 provides historical context for the current definition by reviewing salient elements of prior AECT definitions. Chapter 11 discusses ethical considerations and chapter 12 concludes by discussing ramifications of the current definition for academic programs in educational technology. This book is appropriate for anyone working in the field of educational technology: students, instructors, researchers and in-service providers.
